Good job determining remote viewing is the telepathic tool "they" use to see what your doing, saying and thinking. Controlled remote viewing (CRV) is used to do all the gang stalking. There is not much "tech" involved in this at a practical level. CRV is how they do the timed synchronous drive-byes at intersections, etc....

The "all seeing eye" symbol on top of pyramid is a celebration of the elite using telepathy to keep us under them in line. The "pinecones" as seen on pope walking staff and in Vatican is celebration of pineal gland, which is what enables telepathy in humans and animals. The propaganda they use to misguide all of us TIs in these fake TI videos is RNM, synthetic telepathy, smart dust and that kind of BS. And they want us to be followers of "Jesus" so we will be a army of impoverished TIs completely brainwashed into following whatever BS they want us to do.

"Gang stalking" is law enforcement engaging in counter-intelligence activities on civilians. In other words: "Gang stalking" is the slang term used to describe being subjected to global government surveillance and unlawful monitoring..

People think government surveillance is something that goes on without the target being aware- but that is not correct. Surveillance is magnitudes more effective when it is conspicuous and the target is repeatedly reminded that they are being monitored. Agents do it in ways that only the target will notice, and which nobody would believe. It can be terrifying and can neutralize anyone.

"Gang stalking" is a slang term for the espionage authority granted to law enforcement at all levels as a result of the Patriot Act and FISA 702, which allows for warrantless, long-term and conspicuous surveillance to be conducted by both law enforcement and private security contractors. The security industry is booming and hiring "surveillance role players" constantly, and for good money, too: https://www.glassdoor.com/Job/surveillance-role-players-jobs-SRCH_K00,25.htm (These people often don't realize they are actually doing surveillance work and not acting.) <https://www.indeed.com/m/jobs?q=Surveillance+Role+Player+%2470%2C000>

"Gang stalking" is simply a term for the counter-intelligence work that the three letter agencies have been engaged in since WWII, including McCarthyism and CointelPro. What is unique about the new widespread phenomenon of spying and espionage is that it is being carried out by regular police and first responders as well as normal civilians, criminal and informants through programs like Infraguard, Citizens Corps and database sharing via Fusion Centers. They will even farm out the harassment- law enforcement will recruit your neighbors to spy on you based on the premise that you are a danger to society. It is a type of state-sponsored persecution of individuals who may be deemed anti-social, dissident or nuisance to law and order.

Counter-Intelligence tactics:

*HEAD GAMES - number one tactic is screwing with you

*street theater harassment techniques (staged incidents calculated to upset and traumatize the Targeted Individual, a.k.a. TI,)

Hate Crime and persistent Vandalism -

* Color harassment (NLP sensitization) - flash mobbing in public using the color red worn by many people, surrounding the target, therefore conditioning the target to be "sensitized" to the color red.

*vehicular mobbing - using a group of similarly colored vehicles to follow the target in public.

*vehicular brighting (using high beams from vehicles to hurt and irritate the Target,)

* Managed Aggression - Strangers subjecting the target to repeated "accidental" physical assaults (micro-aggressions), such as bumping into and/or kicking the feet of the target from behind, sometimes as many as 20-50 times per day

*overt and covert photographing of the target, either to be used destroy a targets' reputation or, if it's overt, simply to make the target feel watched and intimidated.

* Synchronizing exit/entry to target's housing or work, synchronizing movements/activity to the Target in an effort to irritate and intimidate them... Or as a form of street theater, synchronizing body movements in front of the target.

*Surveillance abuse - bugs and recording devices planted in targets' home, work etc... result is the target being subjected to "directed conversation" while in public.

https://www.theiphonewiki.com/wiki/Malware_for_iOS

* mimicry- using surveillance to mimic a Target's clothing, favorite colors, etc...

*Jew Baiting - A Term with roots in the Holocaust, where Germans would bait, taunt and physically harass the Jewish people until they would have an outburst, then have them arrested and subsequently sent to camps.

* audio spotlight harassment- using holosonic technology to harass and irritate targets.

https://www.youtube.com/watch?v=0tY_E0YqoVs

* Blocking of passage- "Gang stalkers" will block your passage through a hallway, entrance, exit, road, etc.. to make you go through another way, to make you feel a sense of defeat everywhere you go.

<https://www.itv.com/news/granada/2019-04-02/how-one-womans-life-is-in-ruins-after-being-stalked-by-a-gang/>

*defamation of the character throughout the targets' community and the TI's workplace as violent towards women, a pedophile, white supremacist, prostitute, human trafficker, or other type of highly stigmatizing label calculated to get the TI isolated, with neighbors readily involved in persecution. They recruit your neighbors to spy on you based on the premise that you are a danger to society.

<https://www.youtube.com/watch?v=V1M1Hw90zF8>

*Noise synchronization -alarms, honks, yelling, people passing by at high speed, slamming of doors, coughing at target, training pet dog to bark when target is nearby

*Gaslighting and frame-jobs

America must take a hard look at what rights were given up as a result of 2001 attacks, and how they are currently disrupting the lives of innocent people over the years. These programs are being abused, as always happens when you contract civilians to spy on civilians. Presidents have referred to these programs as a new model for policing which involves "social justice" as well as throwing around phrases like "A Dramatic transformation of society." Every democratic country initiated new surveillance protocols after the events that unfolded in Sept. 2001.

The sooner the masses discover what is causing many of the mass shootings, the sooner a dialogue can be opened. The basic goal is to neutralize you, to get you out of society. That could mean jail, psyche, or suicide. The psyop aspect includes all kinds of scare tactics, gaslighting, etc.. Just remember they are wrong for doing this, and people stood up and would not accept the Nazi holocaust or the Stasi Zersetzung period. So, hope is reasonable thing to have. Please try to spread awareness.

Don't fall for any "conspiracy" nonsense- they aren't a reptile people, nobody can read your mind, no synthetic telepathy, it's not the Illuminati, not "the jews", no V2K (it's holosonic) Satanists or reptilians, it's not the Freemasons (although some members of every community are freemasons and are therefore active in community policing) It's not the CIA, nothing esoteric.

It's police-driven community policing involving many levels of city municipality, first responders, law enforcement, and then everyone that you come in contact with has a chance of being recruited to harass you based on something slanderous told about you by a person of authority. To better understand what is happening, learn all you can about Zersetzung.

"Fusion centers were designed to organize localized domestic intelligence gathering into an integrated system that can distribute data both horizontally across a network of fusion centers and vertically, down to local law enforcement and up to the federal intelligence community. These centers can employ officials from federal, state and local law enforcement and homeland security agencies, as well as other state and local government entities, the federal intelligence community, the military and even private companies, to spy on Americans in virtually complete secrecy."

All the best, RH
